

QUALITY POLICY

of LLC “UniDrillTech”

By statements of the Quality Policy, top management of LLC “UniDrillTech” is obliged:

- comply with all requirements of the Customer;
- comply with the requirements of applicable industry, government and international standards, which covers the designing and manufacturing drilling tools for oil and gas exploration;
- to ensure compliance of existing quality management system to API SpecQ1 requirements, ISO 9001

Our strategic goal - the production of competitive products that fully meet the requirements of API Spec 7-1 and maximal satisfying customer expectations.

We want that our customers were:

1. satisfied with the product quality;
2. satisfied with the price;
3. satisfied with delivery time;
4. interested in constant cooperation with us.

The priorities of our Quality Policy are:

- ❖ compliance with customer requirements and regulations for products;
- ❖ expanding the range of products roller bits;
- ❖ Production development of PDC and DTH bits (crown bits)
- ❖ continuous improvement of product quality, technology and organization of production;
- ❖ maintain operational effectiveness and continuous improvement of quality management systems.

Top Management of LLC “UniDrillTech” ensures the implementation of this Policy and provide the necessary resources for its execution.
